### What happens...WHEN DOMESTIC VIOLENCE GOES TO WORK?

What do you do if your employee is assaulted or stalked at your place of business by a spouse or cohabitant? What are the duties of an employer to an employee who shows up to work with obvious injuries from domestic violence? What are your responsibilities if an employee tells you about domestic violence at home? What do you do if both the victim and batterer are employees? Can you legally terminate one or both? Find answers to these and many more questions at our 2nd Annual **Workplace Violence** Seminar.
